Church Concert Draws Big Crowd

A splendidly representative audience gathered in the Big Hall on Monday evening last, to listen to the Entertainment provided by the joint Methodist and Presbyterian congregations in aid of the building fund, for the completion of the Church.

The programme was long and varied, and reflected the greatest credit on those who were responsible. A new feature has now been added to our local talent in the formation of the Monitor Male Quartette, composed of Messrs Wright (bass), Veno (soprano), Watson (alto) and Purdy (tenor). This quartette made their initial bow to the public on Monday, and covered themselves with credit. It is to be hoped that they will continue to favor us with their selections. The Mixed Quartette composed of Mrs. Woodrow (alto), Miss Carroll (soprano), Mr. C. Purdy (tenor) and Mr. Wright (bass) also made their initial appearance at this concert, and delighted their listeners with their rendition of that beautiful quartette "Sweet and Low". There will be heard from this quartette later. Mrs. Wright accompanied the vocal soloist, with her splendid rendition of "The Death of Minnehaha" (Recitation) and later on in the programme favored us with another selection in the Scotch dialect "Cuddle Doon". Mrs. Wright is an eloquentist of the first water, and it is to be hoped that we may have the privilege of hearing many more of her selections. Miss Carroll and Mr. Galbraith rendered a piano-forte duet which took the place by storm, and in spite of the resolution that no encores were to be given, the appreciative audience refused to be quieted until they had obliged with an encore. Miss Carroll also sang the song "Mifanwy" with splendid effect! It was a treat to hear our old friend Mr. E. B. Purdy with us again. His delivery of "Johnnie Schmokey" captivated his audience, especially the youngsters. The Monitor Citizens Band also rendered three items which were delivered with their usual splendid grace and upbloom. Their quartette piece "The Dance of the Imps" was also a big hit. The girls Drill also went off without a hitch and was well received. Master Ernest Baxter, and Mr. J. Brockelsby of Kirriemuir, also favored us with selections which showed that all the artists in the district are not tied up in Monitor alone. Mr. J. Grace gave an exhibition of Indian Club swinging, which was, as usual, well received. Mrs. Tarr's pianoforte solo at the commencement of the programme was a splendid example of what can be accomplished on this instrument. Mrs. Tarr has a perfect control of continued in next column

Do not forget
to file your

Income Tax Return on or before the 30th of April, 1920

Dominion of Canada

Department of Finance

All persons residing in Canada, employed in Canada, or carrying on business in Canada, are liable to a tax on income as follows:—

1. Every unmarried person, or widow, or widower, without dependants as defined by the Act, who during the calendar year 1919 received or earned \$1,000 or more.
2. All other individuals who during the calendar year 1919 received or earned \$2,000 or more.
3. Every corporation and joint stock company whose profits exceeded \$2,000 during the fiscal year ended in 1919.

Forms to be used in filing returns on or before the 30th of April, 1920.

ALL INDIVIDUALS other than farmers and ranchers must use Form T 1.

FARMERS AND RANCHERS must use Form T 3A.

CORPORATIONS and joint stock companies must use Form T 2.

Penalty

Every person required to make a return, who fails to do so within the time limit, shall be subject to a penalty of Twenty-five per centum of the amount of the tax payable.

Any person, whether taxable or otherwise, who fails to make a return or provide information duly required according to the provision of the Act, shall be liable on summary conviction to a penalty of \$100 for each day during which the default continues. Also any person making a false statement in any return or in any information required by the Minister, shall be liable, on summary conviction, to a penalty not exceeding \$10,000, or to six months' imprisonment or to both fine and imprisonment.

2

General Instructions.

Obtain Forms from the Inspectors or Assistant Inspectors of Taxation or from Postmasters.

Read carefully all instructions on Form before filling it in.

Prepay postage on letters and documents forwarded by mail to Inspectors of Taxation.

Make your returns promptly and avoid penalties.

Address INSPECTOR OF TAXATION,
CALGARY, ALTA.

R. W. BREADNER,
Commissioner of Taxation.

Local Happenings

Mr. DeWolfe, Sr. of Consort was a business visitor in town on Wednesday.

Kill all the gophers on April 10 and there will be none left to kill on the 11th!

Sounding Lake U. F. A. general meeting 1st Saturday in each month 8 p.m. at Horse Shoe Schoolhouse.

FOR SALE. Pure-bred Barred Rock, bred-to-lay Strain, EGGS for hatching, \$1.25 per setting. Apply to A. Grace, Monitor Alta. 15 t t.

The Canadian Wheat Board has extended the time for farmers to procure their Seed Grain up to and including April 15th. This will probably be the last extension so get busy.

A. J. Deadmarsh returned to town on Saturday last week. Jack went to Saskatoon on business, but thanks to the tie-up on the C. P. R. was able to take in a few shows, and be taken in by a few more.

Mrs. and Miss Pell were the Easter guests of Mr. and Mrs. L. O. Gould.

Mr. Childress has decided not to hold his sale, as announced in last week's paper.

It is now 2000 and the registered temperature (lowest) for this Easter tide, and at this writing it looks as though the only crops we will be able to raise in this district this year will be snowballs and grouchies. Six solid months of winter is enough to try the patience of any one.

Readers will please note that the hours for the Telephone office in Monitor, on Sundays and holidays, is from 10 to 12 a.m.

Mr. Wise, Ledger-keeper for the Canadian Bank of Commerce at this point, left yesterday for Stony Plain, Alta. to which point he has been transferred. Au revoir and good luck.

Mr. Clarence Purdy is the new Junior at the Bank here.

Monitor sports day on JULY the FIRST. Exchanges! please.

New Bank Building Soon

The Building Inspector for the C.B. of Commerce was here last week looking over the site for the magnificent building that will grace this town as the new Bank. We understand the plans and site have been approved and construction start as soon as conditions permit.

The building is to be of brick and concrete, two storey and a 50ft. frontage, facing the G.P.R. and will cost around \$6000.00 to erect.

It is evident then, that the managers of this wonderful financial organization have a strong faith in the future of the district, and really, we can't blame them.

the instrument as well as a beautiful touch.

From comments heard, and our personal opinion, the Concert was a big success from every standpoint. It was neither too long or too short, and the evening was replete with music of variety that left nothing to be desired.

Thanks were tendered by the Chairman (Mr. Wright) to Mrs. Carroll for the use of her piano. To the G. W. V. A. for the use of their hall for the Supper held there previous to the Concert. To all those who contributed to the Supper. To Mr. Moth for the free use of the Big Hall, and to the various artists who had so splendidly rendered their services. The Concert was brought to a close by the audience singing "God Save The King" led by the Citizens Band.

Mr. Galbraith's accompaniment to the vocal selections of the evening, were as usual, par excellence.

Board of Trade Meeting

The Board of Trade held a regular meeting on Tuesday night. 19 present. Much business was discussed and the new constitution read and voted on. Such matters as a doctor, dentist, and Fire Protection were gone into a little more fully and progress is being made in these matters.

The Rev. W. S. Wickenden addressed the meeting re the School Fair to be held at Monitor this summer, and the Board unanimously endorsed the Fair, and chose a committee to act in conjunction with those elected at the annual meeting.

At this meeting of the B. of T. the date was set for this year's Sports day—July 1st. It is the intention to make everything as near free as possible, to have a good time for all, but, above all, to have a real Monitor Day.

T. H. Ferguson was elected to the office of Treasurer.

Tennis Meeting TO-NIGHT

Annihilate Complete Tribe

On Apr. 10 all the farmers in the Municipality are going out after the gophers and are using the "Ever-Ready" gopher poison. Thousands of tons of this poison will be put out on this date. If the farmers in the unorganized districts will do likewise, there will be a general clean-up of these pests. You can secure the Ever-Ready Gopher poison at the Kennedy Drug Co., or any other make of poison you wish to use. This is the finest chance there ever was to put one over the gophers. Don't forget—April 10. Turn out and give 'em 'ell. THE KENNEDY DRUG COMPANY.

A Big Western Problem

It is, of course, merely a trite observation, and a statement of what everybody knows, to declare that the Western Prairie Provinces of Canada have many difficult problems to solve in order to promote their maximum growth in population, wealth and general development. Neither time nor space would permit of even a mere recapitulation of these varied and complex problems, not to speak of an intelligent consideration of even a few of them.

Asked to name the first and foremost question demanding attention by the people of the West, would, no doubt, be as varied as they would be interesting. Some would say a larger population in order to develop the country, increase their production, and assist to bear the expense of the public services. Others would urge full provincial control of the natural resources in order that they might be developed for use. Others, again, would lay emphasis upon the assimilation of the foreign-born into a broad and true Canadian citizenship. Better schools and a more general education for all classes would be advocated. Some would say tariff reform, or cheaper money, were the main essentials to a betterment of conditions; while others, again, would lay stress upon social, moral and religious issues. Some practical minds would say more branch lines of railways, better roads, and a general improvement in all means of transportation.

And to a greater or less degree all these things are necessary to the welfare, growth and prosperity of the Prairie Provinces. There can be no question about that. But at the present time there looms up a problem, the solution of which would first appear to be necessary without loss of time if many of these other questions are to be satisfactorily settled. And in some respects it is the most difficult of all our problems.

We refer to the need of solving the difficulties, we might almost say the disastrous conditions, confronting thousands of settlers by reason of the drought which has afflicted sections of the West during the last three years. So long as these conditions continue a black eye is given to immigration to this country because the bad advertisement thus given western Canada abroad has an adverse effect on the securing of that larger population we need and must have. It affects the credit of our people, stops railway development, cripples business and imposes heavy burdens upon municipalities and governments. Something better than the provision of temporary relief to the direct sufferers must be found.

Those who are perhaps best qualified to judge, believe the only solution is to be found in a radical change in farming methods in these districts, and the substitution of other crops, in part at least, for the all grain crops which have, for the most part, been attempted in the past. It is asserted that even in these drought afflicted areas, a few farmers have been able to succeed, where the majority have failed, by reason of the fact that they followed other methods.

In the years of drought, there was not only failure of grain crops, but also of grass, with the result that there was neither food for man nor feed for stock. On the other hand, some farmers were successful even in these years of lack of moisture in raising green corn and other kinds of feed for stock when even the grasses failed. What they succeeded in doing, their neighbors could also do.

It is suggested, therefore, and wisely it would seem, that steps should be taken to bring the actual experience of these men, and the methods followed by them, to the knowledge of the people generally in the districts referred to, not by books or pamphlets, but by these men telling the story of their experiences and success to groups of farmers throughout these areas.

It is also being urged that the combined knowledge of the agricultural experts of the country should be brought to bear in an effort to solve this problem.

These experts and scientific agriculturists on experimental farms and elsewhere have evolved earlier ripening varieties of grain in order to escape the loss occasioned by frosts. Along this line they have met with splendid success and the loss from frost, which formerly was a constant dread of the farmer, has been enormously decreased. Has the time not arrived when the energies of all these men should be turned into the channel of endeavoring to evolve a drought-resisting variety of wheat and other grains?

There are countries even more seriously affected with drought than western Canada, which, nevertheless, are succeeding agriculturally. Surely from these lands varieties of grains can be secured to be tested experimentally here.

Something must be done, and done soon, to create new conditions in the areas referred to, or else they will have to be abandoned as unfitted for agricultural settlement, with all that will mean, not only in individual loss to the people there, but to the whole country. It is impossible to go on, hoping against hope that "next year" will yield a crop, and in the event of disappointment reliance upon the government for food, fuel, clothing and next season's seed, and the removal of stock to greener pastures. The country has about reached the end of this unsatisfactory policy; something more permanent, more constructive, that will put new hope into men's hearts, must be forthcoming.

The ancients do not appear to have had any system of punctuation.

Sweet Thing: Well, you shouldn't have gone into those places.

One Trial of Grape-Nuts

will do more than many words to convince you of the goodness of this wheat and barley food.

But it's worth saying that Grape-Nuts contains all the nutriment of the grains, is ready to eat, requires no sugar and there's no waste.

Grape-Nuts is a Builder

HEAVY WORK

Your horses pull heavy loads over all kinds of roads—make their work easy—save your harness and wagons.

Imperial Mica Axle Grease

prevents friction in the hub. As the mica flakes work into the pores of the axle and hub, the rough surfaces are smoothed with a hard filling of mica. The grease on the glassy surface insures thorough lubrication. Sold in sizes from a one pound tin to a barrel.

Imperial Eureka Harness Oil

makes leather strong, pliable and waterproof. Prevents cracking and breaking of stitches—cannot become rancid because pure mineral oil. It gives leather a rich black, lasting finish.

Sold in pint, quart, half-gallon, gallon and four-gallon sealed cans, half-barrels and barrels.

Canadian Flax

Trade Growing

Proposed to Encourage the Establishment of Spinning Mills in Canada

At a meeting of the Canadian Flax Growers' Association, held in London Ontario, recently, the members discussed a plan to extend the organization. It was pointed out that the acreage under flax has been more than doubled since the start of the war, and the quality of the Canadian seed and fiber demonstrated not only in Ireland, but all over the world. In view of this it is proposed to encourage the establishment of spinning mills in Canada on a large scale; also to bring experienced weavers to Canada from Ireland and start the industry on a sound basis. The final decision on this matter was left over until the June meeting. Several growers are in favor of having the flax seed graded. They will ask the Dominion government to impose such restrictions on the sale of flax that the quality of all Canadian seed put on the world market will be the best possible.

Old Garments New When Diamond Dyed

Shabby, Faded, Old Apparel Turns Fresh and Colorful

Don't worry about perfect results. Use "Diamond Dye," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods, — dresses, blouses, stockings, skirts, children's coats, feathers, draperies, coverings—everything.

The Direction Book with each package tells how to Diamond Dye over any color.

To match any material, have dealer show you "Diamond Dye" Color Card.

The Profit: I don't see the sense in the wife being so anxious to buy a kimono. Why, she couldn't play the bloomie instrument if she'd got it.

Exchange Situation Impetus for Settlers

Americans Taking Good Advantage Of Rate of Exchange in Buying Farms

One of the results of the present high Canadian exchange has been made apparent during the last few weeks. Americans intending to settle in Western Canada are leaving the United States sooner than they planned and in much larger numbers than was expected. The exchange situation has proved a stimulant to American settlement in Western Canada, because the settlers find they can gain from \$1.25 to \$4 an acre in purchasing land. Many Americans who had purchased farms when exchange was normal, and had money in the banks, have taken advantage of the low quotation of Canada's money, and cleared off their deferred payments, making a large saving.

Americans of means are paying cash for their farms. With the rate of exchange as it is today, the saving on a quarter-section of land at \$35 an acre is about \$840, which is quite an item on a \$5,600 transaction, while the ready money thus put into circulation is having a beneficial effect throughout the west, both on investments and general trade.

Minard's Liniment Relieves Neuralgia.

Completing Hudson Bay Line

The Winnipeg board of trade has been notified by the federal government that it will cost 4,000,000 to complete the Hudson Bay Railway. Up to the present, 332 miles of the line have been built and about 90 miles of track are still required to bring the road to its ocean terminus at Port Nelson. The Dominion government

PARTRIDGE TIRES
Game as Their Name

BOY SCOUT NEWS

Young Canada—
Be Prepared

An Appeal For Scoutmasters

Ex-Soldiers Are Asked to Offer Their Services in Training the Men of the Future

Comrades in the Service!—To you, who have already proved your patriotism, by serving your country, I want to appeal now for a further step—that is, to train a few boys to be good men for their country, like yourself.

You know by sight the Boy Scout, with his bare knees, hat and staff. Well, the Boy Scout Movement, for which I speak, has over 250,000 boys in training now, and the testimonials from public men of every branch of government, army and navy, churches, education, etc., coupled with the constantly increasing calls upon us by the public service for Scouts, prove that we are working on lines that are of national value, and therefore worthwhile.

But our numbers and efficiency have been limited during the war by the want of officers in the movement, since seventy per cent. of the men and all our older boys joined up for service.

In spite of this, however, we have been going ahead all the time. The work of training a smart troop of useful enthusiasts is a fascinating game when once you have taken it up—the boys respond so quickly to your ideas.

But it is not only good fun; now that the fighting is over it is the best work that a man can do for his country, at a time when juvenile crime is more rampant than it has been, and when, before the nation, there lies a time of danger and change for which an exceptionally sound, well-trained body of citizens will be invaluable.

The real victory of the war lies not so much in superiority on the battlefield as in the ability of our country to keep its end up in the struggle that is upon us.

That's what we are aiming for in training the Scouts to be efficient citizens, without regard to class or creed. The boys everywhere are eager and willing enough. We appeal for men to come and help them in their spare time, on their return to civilian life.

The work is easy and interesting, and is generally carried on in evenings and on half holidays. We are a keen and very happy brotherhood. Will you join us?

You can come for a short time or permanently as you may feel inclined. In any case I shall be very pleased personally to hear from you and will gladly send you further information as to how best you can help.

Yours truly,
ROBERT BADEN POWELL
For further information write to your respective provincial Scout Headquarters.

Daylight Saving

The Vancouver City Council has formally endorsed the principle of daylight saving and will in all probability exercise the power of local option in adopting it, provided the legislature extends the same privilege in that respect as last year.

Often a man's character would be unable to recognize his reputation if they were to meet.

Poultry Raising As A Vacation

Although the value of poultry and poultry products in the three prairie provinces have amounted to more than twelve and a half million dollars in 1919, it cannot be said that the poultry industry in these provinces is anything more than a side line with the majority of farmers. The high prices paid for eggs during the last few years however, has caused farmers to turn their attention to the possibilities of poultry raising as a means of increasing their income.

This is shown by the interest which is being taken in the teachings of the agricultural colleges and the Dominion and Provincial Government experimental farms throughout the country. Farmers are looking for advice regarding poultry, and are endeavoring to put into practice the valuable information made available by the agricultural colleges and experimental farms.

The work that is being done at the Dominion Experimental Farm at Lethbridge, Alberta, is characteristic of what similar institutions throughout the country are doing, and indicated the enormous profit possibilities poultry raising in the prairie provinces offers, if the profession is taken seriously. At this farm a return of no less than \$90 weekly is being received from a flock of 220 hens which require but part of the time of one man to look after them.

The value of the poultry at the Lethbridge Experimental Farm is measured by the number of eggs a hen lays. Many of the best birds at the farm would not stand very high in the estimation of a judge at a poultry show. But they are egg producers

and eggs mean more revenue to the farmer; and it is the object of the experimental farm to teach the farmer methods that will produce more revenue.

The flock which produces such satisfactory results has been got together by intelligent selection of the proved laying strains. The birds are barred plymouth rocks. In 1918 Mr. C. A. Crossfield, who is in charge of the experimental station at Lethbridge, trapped about 150 hens. Of these 94 hens which had laid more than 150 eggs during 1918, included 37 which produced 200 and more, were selected. These were mated with cockerels of a good egg producing strain, and out of the hatchlings of last spring 220 pullets were taken. These 220 birds were divided into flocks of fifty-five each and penned together in the fall.

One lot was placed in the pen last October, a month earlier than the rest. These fifty-five hens netted a profit of \$1.12 each during the month of December. They laid 1,083 eggs—more than 90 dozen—which were sold wholesale at 90c a dozen. Every hen laid during the month. One pullet laid thirty eggs during the thirty-one days. Many others laid twenty-five and twenty-six each in the same period. The average number of eggs laid by the pullets in this pen during the month was somewhat less than twenty eggs each.

The pens for the other birds were not ready until the middle of November, and the results in December were not quite so good as in the one just mentioned. They were, however, very satisfactory. All but seventeen hens laid. One hen laid thirty eggs, yield-

ing a gross return of \$2.20 for the month. This is a good deal more than the cost of its keep, which some farmers are well satisfied to get from their hens in the winter months. These pens were doing much better later and in January fourteen dozen eggs were being taken from the four pens daily. This works out at about one hundred dozen eggs a week, and at present prices means a return of \$90 a week from 220 hens.

During the cold weather the hens are given a mixture of two parts of corn and six parts wheat in addition to their other feed which consists of oats, bran, shorts, and cornmeal in equal parts, as well as green alfalfa leaves, grit, oyster shell and charcoal. In warmer weather the corn and wheat ration is reduced. Clean water is always available. The food is given in hoppers which are arranged a few inches from the ground.

It would be interesting to see what results could be obtained in western Canada from specializing in poultry raising on a farm where the greater part, if not the whole of the crops, would be grown for feeding the poultry. On account of the great variety of crops that can be grown on an irrigated farm it would seem that these farms offer special advantages to anyone wanting to make poultry his profession, but satisfactory results could also be obtained practically anywhere in the prairie provinces. The possibilities of the industry are being realized, however, and during the last six months reports have been received of more than a dozen different people who have started, or who have planned to begin poultry raising on a commercial scale.

Koreans Will Never Yield to Japanese

"People Will Not Win for Years, But They Will Never Waver," Says Baron Kim

Shanghai.—The Koreans will suffer extermination before they will acquiesce in the rule of Japan, declares Baron Kim Ka-chin, formerly one of Korea's elder statesmen and officials, who has penetrated the Japanese cordon around Korea. He is now one of the members of the little community of Korean refugees who have found haven here in China.

"There can be no peace," he said. "The Koreans will never waver. They may not win for many years, but they will never yield."

He declared that the people are entirely without rights and without political representation. All special privileges are in the hands of the Japanese, he added, and they control all the sources of wealth and rapidly are acquiring actual ownership of the land. The Korean nation, he said, is without a mouthpiece, for, he asserted, not one Korean newspaper edited by Koreans is permitted to exist, and public meetings are wholly forbidden.

"Not more than three persons, even for social purposes, may gather and talk together," he said. "All the schools of the country are under the direction of Japanese teachers, and the instruction is given in the Japanese language from Japanese text-books."

He said that the history that is taught to children is garbled in such a way as to glorify Japan and discredit Korea.

"Japan's course," he declared, "has been driving the people out of Korea into Manchuria at the rate of 100,000

a year. This is because the Japanese have taken control of everything. They operate the railways, the banks, transportation lines and customs offices, and in those few places where there are Korean officials the Japanese adviser is never far distant.

"Even the Japanese ricksha coolies are favored, for they are permitted to solicit fares at exits of railway stations and other places from which the Korean ricksha men are barred."

Expect Prosperous Fruit Season

British Columbia Growers Are Preparing For A Big Year

This year will be the greatest year in history for small fruits in the Fraser Valley, recently stated Hon. E. D. Barrow, minister of agriculture for that province, after receiving reports on the subject. "Contrasts have been offered by the camera from as far east as Toronto and across the line for all the fruit that the Fraser Valley can produce, and for four hundred tons more than its entire estimated crop for this year. That means if not a single berry is shipped for table consumption to Vancouver or to the prairies, the Fraser Valley small fruit growers will still be four hundred tons short of the market," stated the minister.

Fruit canners are not feeling any alarm over the sugar shortage as refineries in British Columbia have given their assurance that they will be able to take care of the province's need in that direction. A generous offer from the Board of Commerce at Ottawa has also been made if any signs of a sugar shortage should occur during the canning season.

Soldiers and Militarists

Intelligence Has Great Deal to Do With Making a Successful General

The more that is written about Marshal Foch and the other leaders in the allied armies, the more it becomes apparent that intelligence has a great deal to do with making a successful general. Foch was not an officer with much experience of actual warfare, and as a matter of fact what distinction he had won came from the excellence of his work at the Ecole Supérieure de Guerre. But for years he had done two things: he had studied military history with the most minute care, and after that had pondered deeply what he had read. He went upon the basis that there must be a reason for everything, and proceeded to search for that reason in military history. As an example, we may take his study of the operations in the war of 1866; doing so, one perceives at once that Foch has sought the rule underlying the majority of tactical and strategic operations, and has sought to make that rule available for future soldiers. One of the most interesting features of Foch's two books is the freedom with which he criticizes von Moltke and the German general staff when it seems proper to do so. If we look at the matter impartially, and are willing to judge by results, we must acknowledge the vital importance of the well-educated officer and of an efficient general staff. The study, reading, information and thought requisite to the direction of military operations are not always recognized by the civilian, nor does he understand how little militaristic are good soldiers.

A New Arctic Trade Route

Steamer Halvar Pioneer Craft in Opening Up New Route of Commerce

A report from Sweden that the Swedish Commercial & Shipping Co. is planning another trading venture next summer in Siberian waters, indicates that the steamer Halvar, which Capt. Albrecht Ellsen took some months ago from Sweden to the mouth of the Ob River and home again, was the pioneer craft in opening up a new route of commerce. It is hardly a route that will attract pleasure travelers, judging by the experience of the small English expedition that accompanied the Halvar, which is said several times to have thought seriously of dropping out because of the great masses of ice that the adventurers encountered. Yet the opinion of Captain Ellsen, whose technical observations have brought his charts of the route up to date, is that a modern steamer can make the trip without much apprehension of serious danger. More than that, he considers that a substantial trade over this Arctic route can be developed between Sweden and Siberia, although the condition of the Siberian harbors is anything but satisfactory to the navigator. At the Siberian end of the route the trade would tap the grain production of the Omsk and Tomsk districts and the metals of the Urals, to say nothing of other Siberian products and the further fact that coal of as good a quality as that of the English east coast, is obtainable in quantity near the large rivers. And a vessel starting from Sweden could probably load a cargo of almost anything that Sweden produces.

Government Ships To Hudson Bay

Western Provinces Will Insist on Opening Up of the Northern Sea Route

In connection with the Government's shipbuilding policy, and a government-owned merchant marine, to which some attention has been devoted in recent issues of this paper, there is one aspect of the whole subject to which, as yet, the authorities at Ottawa have apparently given no consideration, and yet it is one calling for government action. We refer to the construction of frigates to ply between Port Nelson, the Hudson Bay terminus of the Hudson Bay Railway, and European and Eastern Canada ports. These should be built now in order to have them in readiness for the inauguration of a government service, operated in conjunction with the government-owned railway to the Bay as soon as that road is complete. And the railway could easily be completed within a twelvemonth if the government would but make up its mind to proceed with the laying of steel on the already completed grade.

Many people are still skeptical as to the commercial feasibility of the Hudson Bay route, just as many ventures which are now accepted as every-day facts, and are commercially successful, were scouted and opposed when first proposed. It is the duty of the government to construct and place two or three pioneer ships on the Hudson Bay route, and thus positively establish to the satisfaction of Canada, east and west, whether the claims made by the West in behalf of the possibilities and economies of this route are well founded, or whether, on the other hand, the critics of the East are right and the Hudson Bay route is wholly impracticable.

The Government is providing shipping services from our St. Lawrence and Atlantic and Pacific ports, and the West approves such a policy, but it also expects, and will demand, that the government likewise provide ships for our Western port on the great northern inland sea. One thing may be accepted as a positive, unalterable fact, namely, that the Prairie Provinces will never cease their agitation for the operation of the Hudson Bay railway, and the maintenance of an ocean-freight service from Port Nelson to Liverpool, unless it is conclusively established by a practical demonstration that such a route cannot be made a commercial success—Reginald Leader.

Either we know to the earliest chemists.

Cuticura Helps Clear Away Dandruff and Irritation

On retiring, comb the hair out straight, then make a pomade, gently rubbing in Cuticura Ointment with the end of the finger. Avoid additional pomades until the whole scalp has been treated. Place a light covering over the hair to protect the pillow from possible stain. The next morning shampoo with Cuticura Soap and hot water, using plenty of soap, then apply with the hands. Rinse in tepid water. Repeat in two weeks if needed. Cuticura Soap, Ointment and Talcum \$2. each plus Canadian duties.

Australia And Canada

Australians and Canadians Met And Defeated 86 German Divisions

Sir John Monash, in the concluding instalment of his review of Australian victories in France in 1918, quotes figures which indicate the value of the splendid work done by the Australian Corps while under his command. These figures are interesting when compared with similar figures mentioned by Sir Arthur Currie.

In proportion to its population, the number of men put into the field by Australia, and their achievement in every theatre of war in which they were engaged, reflects the very highest credit on the patriotism of that Dominion and on the ardor and bravery of the men. It is also to be remembered that the Australian force was an entirely voluntary one. There was, therefore, much greater difficulty in supplying reinforcements than in the case of Canada, which adopted conscription. The latest figures published show that Canada employed 640,886 men in the war, against Australia's 416,809. The total casualties were greater among the Australians, the ill-starred Gallipoli expedition, where so many of Australia's best manhood sacrificed themselves in vain being mainly accountable for this.

According to General Monash, the actual number of separate enemy divisions engaged by the Australian Corps was 39. Many of these divisions were engaged more than once. This was, therefore, much greater difficulty in supplying reinforcements than in the case of Canada, which adopted conscription. The latest figures published show that Canada employed 640,886 men in the war, against Australia's 416,809. The total casualties were greater among the Australians, the ill-starred Gallipoli expedition, where so many of Australia's best manhood sacrificed themselves in vain being mainly accountable for this.

Business Psychology

A perpetually unshaven fellow who runs a newsstand near the winter garden was haled into court on a trivial charge. He pleaded his own case and was dismissed.

The magistrate was interested in his excellent address and his knowledge of the law. He explained that he had been admitted to the bar and was a graduate of a big eastern college.

"I could make \$2,500 a year with my law," he said, "and I make about \$12,000 a year selling newspapers. It may surprise you to see how unkept I am, but it is business psychology. If I dressed in good clothes people would not purchase from me."

SUNDAY SCHOOL LESSON

LESSON FOR APRIL 11

DEBORAH AND BARAK DELIVER ISRAEL

The book of Judges covers the period from the conquest of Canaan and death of Joshua to the judgeship of Samuel. While Joshua and the elders of his generation lived the people in some measure remained faithful to his Word, but the very next generation went into apostasy. Their declension may be accounted for as follows:

1. Failure to drive the Canaanites from their midst.
2. Their amalgamation with the Canaanites. Their close proximity to the people had its leavening effect, for they soon intermarried with the heathen. Tolerance with the enemy is closely followed by union therewith, and quick disaster comes in the wake of such union.
3. Idolatry. Intermarriage with the heathen was soon followed by the worship of the heathen gods. Thus Israel's power was gradually weakened, so that instead of being conquerors they became the conquered.

In chapter 2-6-9 is given a synopsis of the book of Judges:

1. The sin of the people (vv. 6-13).
2. God's judgment for their sin (vv. 14, 15).
3. Repentance of the people (3-9).
4. God's deliverance at the hands of the judges (vv. 16-19).

A repetition of sin, oppression by the enemy; repentance on the part of the people, and God's deliverance, is the story of the book of Judges.

I. The Judgeship of Deborah (4: 4-5). Her name means "Bee," suggesting orderly instincts. As suggested by another, "She answered her name by her industry, sagacity, and great use to the public." The period was marked by awful oppression. The Israelites were helpless, for the enemy had 900 chariots of iron. Deborah was an unique character. God raised her up for such a time as this. Under a palm tree she held an open court for the administration of justice.

II. Deborah Summons Barak (4:6-10). Barak means "lightning." Deborah, being a prophetess, was able to select the man whose gifts would enable him to rally the forces needed to gain the victory over the formidable foe.

1. Deborah's call (vv. 6, 7). It was God's call through her. She gave definite instruction as to the number of men and the strategy to be employed, assuring Barak that God would deliver Sisera, the captain of Jabin's army into his hand.

2. Barak's reply (vv. 8, 9). Expression of unwillingness to go unless Deborah would go with him should hardly be considered as cowardice or weakness. As it is a well recognized fact, that the presence of a woman, especially the prophetic, would inspire courage on the part of the warriors. However, he should have believed, God's word to give the victory without the aid of a woman.

3. Barak's rebuke (vv. 9, 10). Deborah yielded his request, but made it plain to him that it would detract from his honor as a conqueror, "for the Lord shall sell Sisera into the hands of a woman."

III. The Defeat of Jabin's Army (vv. 11-16).

Sisera, the captain, gathered a mighty army and went forth with full assurance of victory, but he made a sad mistake; he did not consider that it was the Lord's battle (v. 15). At the psychological moment Deborah gave the signal to charge, assuring Barak that the Lord would give victory (v. 16). Through supernatural interposition the enemy became panic stricken (see 5:20).

IV. Sisera Killed by a Woman (vv. 17-24).

In his flight he took refuge in Jael's tent. Under the guise of friendship she committed the most heinous murder. She fastened his head to the ground by means of a tent pin.

V. Deborah and Barak's Song of Victory (chap. 5). This was composed and sung in celebration of the marvelous victory which God had wrought.

"That star up there is Orion."
"So that is O'Ryan, is it?"
"Yes, that's Orion."
"Well, thank goodness there's one Irishman in heaven."

The Egyptians were the first to fix the length of the year.

HEART SO BAD WAS NOT SAFE TO LEAVE HER ALONE

Miss Eva P. Vatemann, Krugersdorf, Ont., writes:—"I feel that I must write and tell you of the benefit I have received from Milburn's Heart and Nerve Pills. About four years ago I was taken terribly bad with my heart, nerves and fainting spells, and was down in bed for about six months. I doctored with two different doctors and seemed to get better, although the fainting spells would not leave me. I would take such terrible falls, wherever I was, that it was not safe to leave me at home at any time. At last I decided to resort to proprietary medicines and took several different kinds, but seemed to receive but little benefit from them. One day noticing the advertisement of Milburn's Heart and Nerve Pills I decided to try them, and before I had taken more than two boxes I could see they were helping me. I have taken about ten boxes, and am almost cured of those terrible spells. I sincerely feel that your medicine has proved a blessing to me, and I advise any one troubled with their heart to try them, as I am confident they will find relief."

Milburn's Heart and Nerve Pills are 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Farm Values Increase

The Highest Price Prevails in British Columbia

The average value of farm lands for the Dominion, including improved and unimproved land, together with the value of buildings, dwellings and other farm buildings, is placed at \$52 an acre for the year 1919, according to the estimates of the Dominion Bureau of Statistics. This is a substantial increase over valuations at \$46, last year; \$44 in 1917; \$41 in 1916, and \$38 in 1914. By provinces the value is highest in British Columbia, being \$178 an acre, as compared with Ontario's values of 66 per acre, and Quebec of \$72.

Wages paid to farm help have considerably increased during the year. For Canada as a whole the wages per month, during the summer, for males, inclusive of board, was \$78, and for females \$43 per month, as against \$70 and \$38 for the previous year. By the year wages for males average \$764, including board, as compared with \$617 for 1918, and for females \$465 against \$416 for the previous year.

HAIR SOON TOO SHORT TO DO UP

A Little "Dandarine" Stops Your Hair Coming Out and Doubles Its Beauty

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of delightful "Dandarine" at any drug or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Help your hair to grow strong, thick and long and become soft, glossy and twice as beautiful and abundant.

Yellowstone park contains more geysers than all the rest of the known world.

Progress of School Exhibition Centres

Saskatchewan Department of Education Is Encouraging Good Work

One of the aims of the Saskatchewan Department of Education during the past few years has been in the organization of school exhibitions by pupils, both in the cities and in the rural districts, throughout the province. In them are shown samples of work turned out by the children and the spirit of competition aroused is proving especially beneficial. Where boys and girls clubs are in existence club fairs are held in connection with the school exhibition.

Last year over two hundred exhibitions by schools were held and this year already shows a substantial advance over the number of centres organized in 1919; the Education Department set their objective for 1920 as 250 school exhibition centres.

It is the policy of the department of education to send at least one judge or speaker to each of the school exhibitions held, and with very few exceptions, judges and speakers were provided for the exhibitions last year. These added very greatly to the interest and the value of these gatherings. In addition to this outside help, the school inspectors in whose territory the exhibition is held invariably attend, and it is largely due to their efforts that the movement has attained its present success.

ACHES AND PAINS QUICKLY RELIEVED

You'll find Sloan's Liniment softens the severe rheumatic ache

Put it on freely. Don't rub it in. Just let it penetrate naturally. What a sense of soothing relief soon follows!

External aches, stiffness, soreness, cramped muscles, strained sinews, back "cricks"—those ailments can't fight off the relieving qualities of Sloan's Liniment. Clean, convenient, economical. 50c, 70c, \$1.40. Made in Canada.

Sloan's Liniment
Keep it handy

Seed Peas in Alberta

Alberta Farmer Receives Contract From U. S. Seed House

As a result of a visit of the representative of a large United States seed company to Brooks and the surrounding district for the purpose of investigating the possibilities of growing seed peas on the irrigated lands of Southern Alberta, a contract has been placed with Henry Davis to grow fifty acres of peas on his farm, at Rosemary, Alberta, this year.

The representative of the seed house was very well pleased with the soil and water conditions throughout the district. He visited many farmers in the neighborhood of Brooks, Duchess and Rosemary. If planted by farmers who understand irrigation, he is of the opinion that good paying crops of peas should be grown on the irrigated farms there.

Mr. Davis, with whom the contract for the planting of fifty acres of peas has been made, came to Alberta from Rigby, Idaho, where he had had some experience with the growing of seed peas. He knows how and when to use water to get the best results with this crop. His experiment will be watched with great interest, and if it turns out as successfully as there is reason to anticipate it will, the growing of seed peas should become general in the district.

In the irrigated areas of Idaho considerable areas of land are devoted to the growth of seed peas, which has proved a very profitable crop, and the handling of the seed is an important industry. Conditions near Brooks are said to be similar to those in Idaho, if not more favorable.

A wife must not expect her husband to be light hearted if her biscuits are heavy.

Some men have a regular Sunday morning attack of homesickness when the church bells ring.

Asquith Makes An Attack On Home Rule Bill

London.—Herbert H. Asquith, former premier and advocate of a one-parliament Ireland, took issue in the house of commons on the home rule question with Premier Lloyd George, whose plan for two parliaments for Ireland Mr. Asquith has characterized as absolutely unacceptable.

Particular interest is centered in the contest between the premier and former premier, both of whom aspire to the leadership of the liberal party. But as yet they have not come to grips.

The fact that agitation is so widespread in Ireland at the present time lends added interest to the ultimate outcome of the bill now before the house, but the real fight will not be on until the committee stage has been reached.

Mr. Asquith spoke against the bill, but contrary to expectations, Lloyd George deferred his remarks until later.

For the moment proceedings fail to arouse much excitement. The arguments take two directions, from the opponents of the bill that it is useless to press the measure as it is certain to be contemptuously rejected by the Irish people, and from the supporters of the bill, that to grant self-determination under existing conditions would be equivalent to consenting to the proclamation of an Irish republic, which no sane government could permit.

After the principal speakers, Mr. Asquith and Andrew Bonar Law, the debate was confined to minor members. The hope that Sir Edward Carson, the Ulster Unionist Leader, would speak was not fulfilled.

She Tells Just Why They Are So Popular

MRS. OAKES SPEAKS IN PRAISE OF DODD'S KIDNEY PILLS

She had severe backache before using Dodd's Kidney Pills, but now she says she is quite well again.

Hastings, Ont. April 5th.—(Special)—Among the women in this section who are shouting the praises of Dodd's Kidney Pills is Mrs. John Oakes, one of our highly respected residents. Nor does Mrs. Oakes fail to give the reason.

"Before using Dodd's Kidney Pills," she states, "I suffered with several backaches. Now I am quite well again."

"I am highly pleased with Dodd's Kidney Pills. They have given me the best of satisfaction."

In those last two sentences Mrs. Oakes gives the reason why Dodd's Kidney Pills are so universally popular with the women of Canada. They give satisfaction. Women in all parts of Canada are every day stating that they suffered from kidney ills and found relief in Dodd's Kidney Pills.

If you haven't used Dodd's Kidney Pills ask your neighbors about them. They have been in use in Canada for more than a quarter of a century and have earned a place in the family medicine chest almost everywhere.

Turks Destroy Railway Bridge

Constantinople.—The Nationalists have destroyed an important railway bridge at Bilejik, on the line between Constantinople and Aleppo. The British are now restoring it. The destruction of the bridge isolated a small detachment of Punjab, but it is expected they will come out safely in a few days.

Will Distribute Canadian Guns

Ottawa.—The guns which are being landed at Halifax will be distributed to the active militia all over Canada, said General Ashton, adjutant-general at militia headquarters of Canada. Canada sent her artillery over during the war and it is now returned. It is required to equip artillery units throughout the Dominion.

Mayor of Cork

Cork.—At a special meeting of the Cork corporation Alderman MacSweeney was elected Lord Mayor. He is a Sinn Féin leader and several times has been deported or imprisoned.

Holland Retains Ex-Kaiser

Reply With Regard to Former German Emperor Agreed to By Allies

London.—The allied powers have accepted Holland's last note regarding the former German emperor, according to an Amsterdam despatch to the Daily Mail.

The Dutch government on March 5 for the second time refused to deliver the former German emperor to the allies for trial. This determination was set forth in a note to the British premier, who, however, declared the Dutch government would take all necessary measures to minimize the liberty of Wilhelm and prevent him from endangering the peace of the world.

The communication stated that precautions to this end would be taken "on the spot." It was assumed that this meant a close guard over the former Kaiser and a strict censorship would be instituted while Wilhelm occupied his estate at Doorn.

To Help Convicted Men

Winnipeg Labor Men to Discuss Means of Releasing Strike Leaders

Winnipeg.—More than 700 delegates, representing Winnipeg labor organizations, will meet April 11 to discuss ways and means to effect the release of convicted strike leaders, James Law, secretary of the defence committee, announced.

It is possible that representations of labor organizations from other cities and towns both east and west, will attend the convention, Mr. Law said. Many enquiries have been received from outside points as to what the committee intends to do.

The defence committee are now caring for the dependents of the convicted leaders. These dependents total 29.

Bolsheviki Lose Heavily

Warsaw.—Russian Bolshevik forces which have been attacking the Polish front in Poland, have suffered severe losses, and "at points have had to withdraw to the eastward," says an official statement issued at army headquarters. Polish troops have pursued the enemy, and have re-taken territory which was lost in the savage fighting of last week, it is said.

Lebanon Declares Independence

Washington.—Lebanon, in Asiatic Turkey, has declared its independence of Prince Feisal's government, the state department was advised by the United States consulate at Beirut. A flag similar to the French tricolor, but with the Cedat prominently displayed was chosen and a constitution is being drawn up.

Grand Duchesse Olga to Reside in Denmark

Constantinople.—The Grand Duchesse Olga of Russia, sister of former Emperor Nicholas of Russia has left for Serbia, en route to Denmark, where she will reside permanently. She still firmly believes her brother and his family are alive.

"SYRUP OF FIGS"

CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

Big Deficit On National Railways Is Announced

Urges Completion Of Hudson Bay Road

Minister of Railways Promised Western Members That Matter Would Be Discussed

Ottawa.—Arguing that if the government could set aside \$5,000,000 for the construction of the Welland Canal, it can at least set aside \$2,000,000 for the completion of the Hudson Bay Railway, a score or more of western members held a conference with Hon. J. D. Reid, minister of railways, and Hon. A. L. Sifton, secretary of state. While little hope was held out that the wish of the delegation would be met this year, the minister of railways and canals promised to bring the matter up in the house for a full and frank discussion on the relative merits of both propositions named. The deputation again urged that the Hudson Bay road was a national project and should be treated entirely as such.

In reply to an argument by the minister that the Welland Canal was deteriorating because of non-completion, the delegates pointed out that exactly the same argument applied to their project. It was also pointed out that \$777,000 had been set aside for the Trent Canal scheme, which project the delegation classed as merely a "pleasure ditch."

Going back to the Welland Canal argument, it was contended that this scheme would not be of any real use until the St. Lawrence canal scheme was finished, and as yet it had not got past the survey stage.

Settlement of Palestine

Jews and Arabs to Co-operate in Restoration of the Holy Land

New York.—Speedy settlement of political difficulties in Palestine by co-operation of Jews and Arabs in restoration of the Holy Land is expected as the result of the Palestine Jewry's request for Arab aid, according to an announcement here by the Zionist organization of America. The organization received a despatch from the Zionist commission in Palestine stating that Vaad Hasmania, the representative body of Palestine Jewry, had issued a manifesto to the Arabs explaining that Zionist aspirations in the Holy Land "will not exploit or injure the Arabic population, but will prove of mutual benefit to all," and asking their co-operation.

Cost of Hudson Bay Road

Over Three Hundred Miles of Steel Have Been Laid On The Line

Ottawa.—In reply to Mr. Campbell in the house, the minister of railways said that 322 miles of steel had been laid on the Hudson Bay Railway. There were 92 miles still to be laid. The total expenditure of the railway at the end of the last fiscal year was \$13,890,387 and on the terminals \$6,344,499.

The estimated cost of completing the track-laying into Port Nelson was \$1,750,000, but to complete the railway would require \$4,000,000.

Cleveland to Chicago in Two Hours Cleveland.—The speed record for mail by the air line between Cleveland and Chicago was broken today when Pilot James H. Knight covered the 340 miles to this city in two hours and ten minutes, an average speed of 157 miles an hour. The previous record, two hours and twelve minutes, was also held by Knight, made several weeks ago.

Hoover for President

San Francisco.—Herbert Hoover has telegraphed to the Hoover Republican club of California that he would accept the Republican nomination for President "if it is felt that the issues necessitate it and it is demanded of me."

Ottawa.—In a comprehensive speech, Dr. Reid, minister of railways laid before the house the first annual budget of the government railway system since its inauguration. His statement has been daily waited and was followed with interest by all sides of the house.

He gave in detail the financial result of the year's operation, outlined the needs of the road in the future; stated their program for the coming year. It discussed the vital question of the suggested increase in freight rates.

The year's work showed an operating deficit on government roads of \$14,000,000, namely: Canadian Northern, \$6,500,000; I.C.R. and Transcontinental, \$7,500,000. To this there has been added \$19,000,000 for fixed charges and a total deficit for the year (including fixed charges) of \$33,000,000.

In comparison the operating deficit of the roads in 1918 (the Canadian Northern was then in private hands) was \$2,134,000.

Revenue, too, had advanced nearly \$12,000,000. But, so Dr. Reid explained to the house, operating expenses had increased from \$84,000,000 to practically \$108,000,000. The advance in operating expenses were largely due to increases in wages granted under the McAdoo award.

In all this, however, Dr. Reid did not take the Grand Trunk Pacific (of which the government is in possession as receiver) into account. The Grand Trunk Pacific, Dr. Reid intimated, would be the subject of another statement later, but he indicated a total loss to the road last year of \$14,000,000, as follows: Operating loss, \$5,500,000; fixed charges, \$8,500,000. Thus deficit on all lines for the year, including the G.T.P., including both capital charges and operating loss, totalled \$47,000,000.

From deficit Dr. Reid passed to suggest increases in freight rates. It is in this regard, probably that his whole statement will awaken the widest public interest. There was the point to be considered, he said, that any increase of rates on government lines would apply equally well to the Canadian Pacific Railway. Should therefore, Dr. Reid asked, freight rates be generally increased for the particular purpose of enabling the Canadian National railway system to meet operating expenses and fixed charges? An increase of say 25 per cent in rates would mean an additional charge on the public of \$88,000,000, approximately.

"Whether," Dr. Reid pursued, "we shall take \$88,000,000 in increased freight rates out of the people of Canada, to show a surplus for the National system, which I myself am not prepared to take the responsibility of deciding either one way or the other." He would leave it to the consideration of the house and the people of Canada.

JOY AND GLADNESS FOR THE CHILDREN

Every child—whether it be poor or rich is entitled to joy and gladness. Health is the birthright of all and there is absolutely no doubt that the healthy baby is a happy baby. It is the baby's nature to be happy—not cross. Only the sickly baby is cross. The well child is a joy to its mother—it is a laughing, gurgling, happy little piece of humanity which drives dull care from the household. The sickly baby is the opposite—he is cross and peevish; cries a great deal and is a source of constant worry to the mother. But mothers there is no need of your little ones being sickly. Regulate the baby's bowels and sweeten his stomach with a gentle but thorough laxative and baby will soon be well and happy again. Thousands of mothers have proved this through their use of Baby's Own Tablets—there is a smile in every dose of the Tablets. Give them to your baby and make him happy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams Medicine Co., Brockville, Ont.

ALERT ALTARIO

Easter passed pleasantly in town with a good attendance at Sunday School and Church to hear Rev. Amos preach from the text in Revelation I. "I am the first and the last"

Miss Dove Inkster spent Easter vacation in town with her sisters Misses Harriet and Grace who entertained a few friends at tea on Sunday afternoon. Mrs. Watling also gave a young people's party when everyone reported a real good time.

Andy Rummus has gone back home to Plenty we shall miss his familiar figure in town.

Hilding Kallman is home again from Saskatoon where he attended the School of Telephony.

Stanley Conquest spent Easter week with his sister Gladys in Saskatoon. Mr. Isaiah Halliday who taught recently in this town was also in that city attending the Teachers Convention.

Mr. Conquest and Mr. Perell returned from Calgary where they spent a week at a Horse fair and on business.

Lee Hein of this town is now in Fusilier another Chinaman having taken over the management of the Altario Hotel.

Eric Brokman, Oly Rickstedt, Louis Rexel all came back to town after working out for the winter.

matter of ten days or so) until the strike was over and shipping was possible. This was a very great convenience to many farmers, and they have shown and we will hope, continue to show their appreciation in the increased volume of cream brought here.

During the coming summer we will be in a position to pay the top market price at all times and would ask all old Shippers and any new ones to bring us their cream which we will endeavor to grade and test as accurately as is humanly possible. We make no extravagant claims to infallibility no human is infallible but, if any patron's test does not come up to expectation we are always pleased and willing to retest on request and make perfectly sure that patrons get all the Butter fat there is in the cream.

As our sole remuneration for this work is a small commission from the creamery [nothing out of the patrons cheque] on the amount of Butter fat purchased, it is to our interest as much as the patrons that they get all the Butter Fat there is in the cream.

We might also say that cream patrons are under no obligations to spend their cheque here if they do not wish to do so, but of course it is our aim to select and price our stock of groceries so that it is distinctly to their advantage to spend their money while here.

With very many thanks to all patrons, past present and future we are yours for service.

Ferguson and Co.

TO MR. AND MRS. CREAM SHIPPER

Dear Sir or Madam.

It is a year past since we started buying cream in Monitor and we are now in a position to compare one month with another. In the period just closed our cream shipments show an increase of 50% over the corresponding period of last year, which in view of conditions of crops and feed shortage surely shows that our service is appreciated and is giving satisfaction to our patrons.

Our idea in starting this station has been frequently under fire, so a few words on that subject will not come amiss.

Firstly we knew from experience how hard it was to get any cash from Storekeepers and how impossible it was to take trade for all the products of the farm.

Secondly we realized how practically impossible it was to pay cash for all Butter and eggs.

Thirdly, while farmers having large quantities of cream could ship direct to creameries with varying degrees of satisfaction, there was no market for the farmer with a small quantity of cream, insufficient to make a shipment. It is to this class that for over twelve months we claim to have been a direct benefit. All will remember the big strike of last Spring and how we purchased the whole cream product of this territory and held it here (a

Hardware & Farm Implements

Altario continued
Readers of the Arrow have missed the social gossip of their own town paper so by request we will do our best to please by providing as much small talk in this column as the Editor will allow. We live in dread of his blue pencil deleting our choice information of this town—it's not our fault that we can't report oil in gopher holes, we would be grateful if we only had water in our wells, as Jack Frost's continued visitation has resulted in our gusher drying out.

Extra copies of this paper can always be ordered from The Newsman who is also authorized to collect your over due Sub.

Wheatshaf Agric. Fair Meeting

A goodly number turned out on Saturday last to discuss the pros and cons of the coming Fair. All were agreed on the desirability of holding one this year but the location was a point on which there was con-

siderable discussion. The folks "down south" naturally wished it to be in the Wheatshaf district—its original home—while those north of the track and the townsfolk maintained Altario was the logical centre. By a vote of ten to six it was carried that it be held in town.

W. Clarke was elected Pres. with H. McCulloch and G. Morley as Vice-Pres. nine men directors and seven lady directors were appointed covering the three towns Compeer Kirriemuir and Altario.

We hear the prize money this year is \$600.

STONELAW U.F.A.

FARMERS BREED PERCHERONS

The only breed of draft horses ever shipped back to England from Canada for breeding purposes were Percherons. The greatest breed of draft horses in North America are Percherons. The safest investment in draft horses today is Percherons. A profit to own—a pleasure to handle. You will make no mistake in your horse breeding this year if you use a Percheron sire.

WRITE FOR INFORMATION AND LITERATURE
Let us put you in touch with the best Canadian Percheron Breeders. Mention this paper when writing.

The Canadian Percheron Horsebreeders' Association
William H. Willson, Secretary (Desk A.), Calgary, Alberta

BAR U AND NAMAKA FARM PERCHERONS

The largest stud of the Purebred Percherons in the World. The Bar U Percheron breeding farm established in Canada. The only firm on the American continent from which British horsemen have selected Percheron breeding stock to establish studs in Britain.

Do not let the British breeders come to Canada and carry off all our best foundation stock. Do not be satisfied with the cheap cull stallions brought in by irresponsible dealers and stallion peddlers from the United States, when you can buy the best individuals of the best breeding raised right here in Alberta by men that have been in the breeding business for 25 years, and expect to remain in the business. We have seventy-four head of Purebred Percheron Stallions at our own breeding now on hand to select from. You can see their sires and dams, and if you cannot choose one from the lot to suit you we will give you every assistance in our power. Write for prices or come to Calgary, Alberta, and we will meet you and show you the stock at any time.—Address:

GEORGE LANE (Desk B.), CALGARY, ALBERTA

Wantmore Peanut Candy

Boil three cups of sugar in one cup of water until it hardens when dropped into water; flavor with lemon, then add one and a half cups of Wantmore Blanched Salted Peanuts chopped fine. Stir well, pour into a hot dish or pan, freely buttered, and pour candy in. Spread over enough surface to make a thin candy. Be sure and use Fowler's Wantmore Salted Peanuts, as no other peanuts will make it as good.

Good Prospects For Crop

"I consider the prospects for the coming season on the land are the best in several years," states F. W. Crandall, of Calgary, the largest individual farmer in Alberta.

Mr. Crandall states that he expects to crop about 10,000 acres this year. The moisture conditions, he says, are ideal. There has been a heavy fall of snow, which has gone off gradually, furnishing moisture to the soil.

This opinion is shared by experienced farmers from all parts of the province, and all indications point to a heavy crop this season.

Will Morning Never Come

DOES this illustration picture your experience?

What is more distressing than being unable to sleep?

Sleeplessness is one of the first and most certain symptoms of exhausted nerves.

This is the warning that you need the assistance of Dr. Chase's Nerve Food to restore vigor to the nerve cells and thereby avoid the development of serious nervous trouble.

By improving the quality of the blood, and building up the nervous system this food cure brings new energy and strength to the whole body.

30 cents a box, 5 for \$2.75, all dealers, or Edman, Bates & Co., Ltd., Toronto.

GRUMPY?

If Constipated, Bilious or Headachy, take "Cascarets"

Brain foggy? Blue devils got you? Don't stay sick, bilious, headachy, constipated. Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, your breath bad and stomach sour. Why not spend a few cents for a box of Cascarets and enjoy the nicest, gentlest laxative-cathartic you ever experienced? Cascarets never gripe, sicken or inconvenience one like Salts, Oil, Calomel or Harsh Pills. They work while you sleep.

Telephone System Being Extended

Are 11,000 Phones in Farm Homes in Alberta

According to the deputy minister of railways and telephones of the provincial government, there are 11,000 telephones in farm homes in Alberta.

It is the aim of the government to place an automatic phone in the home of every subscriber. The government has adopted the policy of extending the system as soon as possible to districts where the service does not now exist.

In pursuance of this policy an ambitious plan of development is being followed this year. Miles of construction work is being undertaken for which the government has ordered 250,000 telephone poles, one and a half million pounds of copper wire, and about four million pounds of iron wire.

During the past year over two million long distance calls were handled by the system.

Motor Cars in Canada

One in Every Twenty-three Persons in Canada Own a Motor Car

There are 6,000,000 automobiles in the United States or one to every twenty inhabitants. In England there are only 180,000 cars, or one to every 268 persons. There is one automobile to every 402 people in France, to 684 people in Germany, to 1,000 people in Italy, to 2,700 people in Austria, to 5,300 in Russia.

Registration of cars in Canada increased 13 per cent. over that of 1918 Ontario continues to be the banner province for automobiles, with 127,860 passenger cars, and 11,428 motor trucks in use, with Saskatchewan, Alberta, Manitoba and Quebec following in order. The rural population owns more than half the cars in the Dominion and in the prairie provinces the percentage is higher.

Canada is no longer an assembling centre for automobile parts made in the United States. The made in Canada automobile is now a reality.

Dairying in Manitoba

Value of Dairy Products For the Year Amounted to \$16,789,892.51

Manitoba has forty-four creameries, with 22,000 milk and cream shippers, and present indications for increased production of dairy products in the province are exceedingly encouraging.

During the year 1919 a number of new silos were erected at different parts of the province. These have been filled with corn, green oats, and peas, which makes a succulent and good cheap feed for milk cows.

The total value of dairy products for the year amounted to \$16,789,892.51. The increased production, combined with the increased price, amounted to \$5,001,719.25. The increase in dairying is more noticeable in the Southern part of the province, where grain growing has been carried on for 25 or 30 years. There appears to be a marked change towards more mixed farming in this part of Manitoba.

SPRING IMPURITIES

MEAN WEAK BLOOD

A Tonic Medicine Is A Necessity At This Season

Dr. Williams' Pink Pills are an all year round tonic, blood builder and nerve strengthener. But they are especially valuable in the spring when the system is clogged with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching. In the spring one feels weak and tired.

—Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor—Dr. Williams' Pink Pills improve the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood most often find an outlet in disfiguring pimples, eruptions and boils. Dr. Williams' Pink Pills speedily clear the skin because they go to the root of the trouble in the blood. In spring anaemia, indigestion, neuralgia, rheumatism and many other troubles are persistent because of weak, watery blood and it is at this time when all nature takes on new life that the blood most seriously needs attention. Among those who have proved the value of Dr. Williams' Pink Pills is Mr. Archie D. Carmichael, Tarboro, N.S., who says: "For many years I have been bothered with pimples which would break out on my face and body. The trouble was always worse in the spring, and although I tried different treatments, it was without much success. In the spring of two years ago the trouble was worse than usual, and although I was taking medicine it did not help me until I finally decided to try Dr. Williams' Pink Pills. Under this treatment the pimples disappeared, and there has since been absolutely no return of the trouble."

Dr. Williams' Pink Pills can be obtained from any dealer in medicine or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

A will written on a table cloth was refused probate in San Francisco because Mrs. Helen Schiff who wrote it just before she died, forgot to put a date on it.

Minard's Liniment for sale everywhere.

Black Prospect

"Two bags and a hatbox," said the tourist who was travelling for the first time in Scotland, on arriving at a little wayside station. The porter mournfully collected the articles and put them on board a cab. "And, by the way, porter," said the passenger, "what do they usually give you here for a tip?"

The porter jerked his thumb over his shoulder. "See you big house in among the trees!" he asked. "Yes, but what has that to do with it?" "Well, that's the workhouse, and it's full of old railway porters."—Argonaut.

Catarh Cannot be Cured

by LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarh is a local disease, greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE will cure catarh. It is taken internally and acts through the blood on the mucous membrane. HALL'S CATARRH MEDICINE is composed of some of the best tonic known, combined with some of the best blood purifiers. The perfect combination of the ingredients in HALL'S CATARRH MEDICINE produces such wonderful results in catarh conditions.

Dairy Business Increases

Swift Current Increases Output By Over Six Hundred Per Cent

The Swift Current plant of the Saskatchewan Creamery Company reports an increase of over six hundred per cent. in the business done during the first ten weeks of this year, as compared with that of the corresponding period in 1919. This showing is all the more remarkable since Swift Current is in the heart of the so-called "dry area" of Saskatchewan, where during the past year the wheat crop was much below normal. It is accepted as evidence that while lack of rain may seriously affect grain crops, it has no apparent effect on the dairy industry. The butter output of the Swift Current plant in 1919 was 199,054 pounds, according to figures received at the dairy branch of the provincial department of agriculture.

This creamery is a branch plant of the Saskatchewan Creamery Company which has other branch plants in various parts of the province. Since January first the total output of all branches shows an increase of approximately fifty per cent. over the corresponding period last year. The faith which the company has in the future of dairying in the southern and western portions of Saskatchewan is evidenced by the fact that they are erecting new plants this year at Weyburn and Maple Creek.

"The idea of dairying at Maple Creek five years ago was a joke," says an official of the dairy branch. "These results, accomplished in dry years, on-

ly go to show the possibilities of the dairy industry in this province under normal conditions."

The art of cameo cutting was brought to a high stage of perfection by the early Greeks.

HOW TO "BE FIT" AT SIXTY

BY DR. LEE HERBERT SMITH.

As our boys "came marching home," they brought a certain red-blooded doctrine, and showed us the glory of a perfect body. They will show us how to "keep fit," even if we have passed middle life and are beyond the athletic stage. For the tired business man, the man who feels the daily grind and the nightly lag, has meager appetite, headaches, nerves unstrung, is gloomy, ending in a soggy brain, try the right way. Get out of bed, open the window, breathe deeply, exercise the army "setting-up" exercise or use dumb bells, until in a warm glow.

Before breakfast take hot water, and occasionally castor oil or a pleasant laxative made up of May-apple, aloin, jalap, and sold by all druggists as Dr. Pierce's Pleasant Pellets.

As Prof. Strauss says, "The excretion of uric acid we are able to effect by exciting diuresis." Drink copiously of soft rain or distilled water, six or eight glasses per day, hot water before meals, and obtain Anurio Tablets, double strength, for 50¢, at the nearest drug store and take them three times a day. If you want a trial package send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

"Anurio" (anti-uric-acid) is the recent discovery of Dr. Pierce and is much more potent than lithia, for it will dissolve uric acid as hot tea dissolves sugar.
